"P-e-r-f-e-c-t-o-r-s!"
said the March Hare.
"You know what that means?"
"I'm not sure," Alice replied,
"but I suppose it's some sort
of a name." "It's a very good
name," said the March Hare.
"It's a very good name," he
repeated, sitting down again
at his tea-table. "It's a
very good name," he said
again, and then added, "It's
a very good name."

The image shows a vertical column of handwritten text on the left side. The handwriting is cursive and appears to be in English. On the right side, there is a detailed black and white illustration of a cat's head, looking slightly to the left. The style of the drawing is reminiscent of a woodcut or a detailed engraving.

The illustration depicts a tortoise standing on its hind legs, with its front legs raised as if it's walking. The tortoise's head is turned to the left, and it has a small tuft of hair at the back of its neck. The background is filled with a continuous, flowing cursive script that appears to be written in ink, creating a textured and somewhat abstract backdrop.

over to the left; you can't do it
unless you're very good at it.
I think it's a good idea to
start with a simple pattern
and then move on to more
complex ones. You can also
try different colors and
patterns to make your
sculpture more interesting.
I hope this helps! If you
have any other questions,
feel free to ask.

For example, if we have
a box of 1000 books.
and we want to find the
percentage of books:
that are fiction.
we would do the following:
1. Count the number of
books in the box.
2. Count the number of
fiction books.
3. Divide the number of
fiction books by the
total number of books.
4. Multiply the result by
100 to get the percentage.

"First witness"

"I say," said the Hatter,
 "it was all written down
 before you came into the room."
 "It must have been," said Alice,
 "or else you couldn't have known
 what to write!"
 "I might have known it,"
 said the Hatter, "but I didn't.
 You see, it's a poor little
 teapot for a witness!"
 "Well, it's a poor little
 teapot for a witness," Alice said,
 "but still—"

The image shows a vertical column of handwritten cursive text on the left, separated by a vertical line from a detailed black and white illustration on the right. The illustration depicts a person with dark hair, wearing a patterned dress, sitting at a wooden desk. On the desk, there is a large, ornate inkwell, a quill pen, and some scattered papers. The person appears to be writing or reading. The overall style is that of a personal diary or a historical document.

It is to be noted that the
present system of classification
is based on the following
principles:—
1. The first principle is that
the species should be grouped
according to their affinities,
and that the groups should
be as homogeneous as possible.
2. The second principle is that
the groups should be arranged
in a natural order, so that
the species may be easily
recognized and distinguished.
3. The third principle is that
the groups should be arranged
in such a way that they may
be easily compared with each
other, and that the differences
between them may be clearly
seen.
